**Electric range; Certified WLTP (KM) combined cycle: 190KM (24 kW Battery) & 299KM to 320KM (42kW Battery) These figures were obtained after the battery had been fully charged. The Fiat 500e is a battery electric vehicle requiring mains electricity for charging. Figures shown are for comparability purposes and the values are only indicated for the purpose of comparing the vehicle data. The electricity consumption homologation values may not be representative of the effective electricity consumption values, which depend on many factors related, for example, to driving style, route, weather and road conditions and to vehicle condition, use and equipment. The electricity consumption values specified in this document refer to the versions of the vehicle with the highest and lowest values.
